

UK-Type Examination Application (Radio Equipment Regulation)

1 Manufacturer (Person who places it on the market under own trade name)	
Name:	Phone Number and Email:
Address:	Contact Name & Title:

2 Authorized Representative (Only required if application is submitted by a representative of the manufacturer)	
Name:	Phone Number and Email:
Address:	Contact Name & Title:

Note: The delegation of tasks from the manufacturer to the authorized representative must be explicitly in writing. An authorization letter from the manufacturer must be submitted. The authorized representative must be established inside the Union.

3 Client Information (Organization submitting this form to us)	
Name:	Phone Number and Email:
Address:	Contact Name & Title:

4 Product Description	
Brand/Trademark Name:	Model/Type Designation:
Product Description (Briefly in 8-10 words):	
4.1 Product Specifications	
Intended Use / Category (Refer to ERC RECOMMENDATION 70-03 or actual standard title for relevant category or intended use) :	
RF output power (ERP/EIRP/Conducted in dBm or W) :	
Frequency range (MHz) :	
Modulation:	
Antenna Type:	
Duty cycle (%) :	
Software version:	
Hardware version:	
Description of use:	

5 Application Technical File (To be completed internally by Vista)	
File Identification Number :	
Company Name :	
Applicant Address :	
Issue Date :	
Application type :	<input type="checkbox"/> New examination <input type="checkbox"/> Modification to existing UK-Type examination

6 Essential Requirements to be Assessed
Radio Equipment Regulations 2017 Schedule 3 (Module B)
Aspect of Essential Requirements <input type="checkbox"/> Radio (Regulation 6(2)) <input type="checkbox"/> EMC (Regulation 6(1)(b)) <input type="checkbox"/> EMF (Regulation 6(1)(a)) <input type="checkbox"/> Safety (Regulation 6(1)(a))

7 Technical File Exhibits		
Item	Exhibit Description	Exhibit Name/Number (or file name)
1.	Copy of the UK Declaration of Conformity	
2.	Agent/Representative authorization letter from Manufacturer (if application is filed by someone other than Manufacturer)	
3.	Attestation letter for compliance with regulation 8	
4.	Attestation letter and/or exhibits for compliance with regulation 14 (1) (i.e. info on packaging completed with users instructions)	
5.	A general description of the radio equipment (e.g. Operational Description)	
6.	Photographs or illustrations showing external features, marking and internal layout	
7.	Schedule 5, 1(a)(ii) - Versions of software or firmware affecting compliance with essential requirements	
8.	User information and installation instructions	
9.	Conceptual design and manufacturing drawings and schemes of components, sub-assemblies, circuits and other relevant similar elements	

10.	Descriptions and explanations necessary for the understanding of those drawings and schemes and the operation of the radio equipment	
11.	Schedule3, module B - Analysis and assessment of the risk(s)	
12.	Where the conformity assessment module in Schedule 3 has been applied, copy of the UK-type examination certificate and its annexes as delivered by the approved body involved	
13.	Results of design calculations made, examinations carried out, and other relevant similar elements	
14.	Test reports	

8 Essential Requirements and Standards Applied				
Aspect	Standard Number (include version and/or year) When harmonized standards have not been applied, manufacturer must provide descriptions of solutions adopted to meet the essential requirements in regulation 6 and list of technical specifications applied	Designated Standard Applied in Full	Designated Standard Applied in Part	Harmonized Standard Not Applied
Radio :		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
EMC :		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
EMF:		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Safety :		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

I declare that, I will:

- Always comply with the relevant provisions of the UK legislation;
- Make claims regarding UK-Type Examination only in respect to the scope for which the certificate has been issued;

- Not use its UK-Type Examination Certificate in such a manner as to bring the Approved Body into disrepute and does not make any statement regarding its certificate on which the Approved Body may consider misleading or unauthorized;
- Discontinue its use of all advertising matter that contains any reference to UK-Type Examination and returns any UK-Type Examination documents as required by the Approved Body upon suspension or cancellation of certificate;
- Reproduce copies of the UK-Type Examination documents, provided to others, in their entirety or as specified in the UK-Type Examination scheme;
- Ensure that reference to its UK-Type Examination in communication media such as documents, brochures or advertising, complies with the requirements of the Approved Body;
- Ensure that product markings and references to the UK-Type Examination meet the requirements of UK legislation;
- Keep a record of all complaints made known to the supplier relating to a product's compliance with the requirements of the relevant standard and to make these records available to the Approved Body when requested;
- Take and document appropriate action with respect to such complaints and any deficiencies found in products or services that affect compliance with the requirements for UK-Type Examination;
- Endeavor to ensure that no certificate or report or any part thereof is used in a misleading manner;
- The manufacturer must notify us of any changes made to this product that might affect the compliance of this device.
- I have established a Technical Documentation as referenced in this application to be presented to the Approved Body to enable assessment of the product conformity with the essential requirements of the Radio Equipment Regulation and to be kept at the disposal of the national authorities for 10 years after the apparatus has been placed on the market.
- The same application has not been lodged with any other approved body;
- For product being placed on the market in the UK, I shall inform the approved body that holds the technical documentation relating to the UK-Type Examination certificate of all modifications to the approved type that may affect the conformity of the apparatus with the essential requirements of this regulation or the conditions for validity of that certificate. Such modifications shall require additional approval in the form of an addition to the original UK-type examination certificate. Failing to maintain compliance with the requirements may result in Approved Body to suspend or withdraw the UK-Type Examination Certificate;
- In the course of the monitoring of conformity following the issue of an UK-Type Examination certificate, if the Approved Body finds that the radio equipment no longer complies or the Certificate is expired, I shall provide a reply to the Approved Body, no later than 15 days of the request, with corrective measures. Failing to respond within the required time may result in Approved Body to suspend or withdraw the UK-Type Examination Certificate;
- If I do not take corrective measures or the corrective measures do not have the required effect, the Approved Body may restrict, suspend or withdraw the UK-Type Examination certificate, as appropriate.

I consent to the following obligations of the Approved Body:

- Approved bodies shall inform the notifying authority (NIST) of the following
 - any refusal, restriction, suspension or withdrawal of an UK-type examination certificate [or a quality system approval] in accordance with the requirements of Schedule 3 [and 4];
 - any circumstances affecting the scope of or conditions for notification;
 - any request for information which they have received from market surveillance authorities regarding conformity assessment activities;
 - on request, conformity assessment activities performed within the scope of their notification and any other activity performed, including cross-border activities and subcontracting.
- Approved bodies shall, in accordance with the requirements of Schedule 3 and 4, provide the other bodies approved under this regulation carrying out similar conformity assessment activities covering the same categories of radio

equipment with relevant information on issues relating to negative and, on request, positive conformity assessment results.

- Each approved body shall inform its notifying authority (NIST) concerning the UK-type examination certificates and/or any additions thereto which it has issued or withdrawn and shall, periodically or upon request, make available to its notifying authority the list of such certificates and/or any additions thereto refused, suspended or otherwise restricted.
- Each approved body shall inform the other approved bodies concerning the UK-type examination certificates and/or any additions thereto which it has refused, withdrawn, suspended or otherwise restricted, and, upon request, concerning such certificates and/or additions thereto which it has issued.
- Paragraph 3 Each approved body shall inform the Member States of UK-type examination certificates it has issued and/or additions thereto in those cases where designated standards the references of which have been published have not been applied or not been fully applied.
- The Member States, the Commission and the other approved bodies may, on request, obtain a copy of the UK-type examination certificates and/or additions thereto.
- On request, the Member States and the Commission may obtain a copy of the technical documentation and the results of the examinations carried out by the approved body.
- The approved body shall keep a copy of the UK-type examination certificate, its annexes and additions, as well as the technical file including the documentation submitted by the manufacturer for 10 years after the radio equipment has been assessed or until the expiry of the validity of that certificate.
